

JPS had an in-person conference after a long time!  
Following members gave oral presentations and enjoined.

Y. Kohama ; Encouragement of Designing Equipments for Condensed Matter Physics:  
Development of Techniques and their Application

T. Nomura ; Elastic properties of  $\text{SrCu}_2(\text{BO}_3)_2$  up to the saturation magnetic field

T. Nomoto ; Dimensional crossover and chiral magnetic effect in an organic topological insulator  $\alpha\text{-(BETS)}_2\text{I}_3$

N. Matsuyama ; Quantum oscillations in a centrosymmetric skyrmion host  $\text{GdRu}_2\text{Si}_2$
