

Presentation at SCES2023

We attended the international conference named Strongly Correlated Electron Systems 2023 (SCES 2023) held in Incheon, Korea. Dr. Kinoshita made an oral presentation titled “Field-induced reentrant insulating state in the extreme quantum limit of a topological insulator $\text{Bi}_{1-x}\text{Sb}_x$ ($x \sim 0.1$)” and Mr. Chen, a Ph. D. student, gave a poster presentation titled "High-field Magnetization and Magnetoelectric Effect of Polar Magnet $\text{Fe}_2\text{Mo}_3\text{O}_8$ ".
