A Project Research Associate Position
at the Institute for Solid State Physics (ISSP), the University of Tokyo

The ISSP is seeking outstanding candidates for two positions of the project research associate in the Quantum Materials Group to conduct researches funded by a CREST project of Japan Science and Technology Agency (JST). The successful candidate will collaborate with Prof. Satoru NAKATSUJI to conduct (1) researches of vigorous experimental research on fabrication of thin film and nanoscale structure of topological materials or (2) researches of high precision measurements of novel phenomena of nanoscale structure of topological materials. (The successful candidate is expected to focus on one of the two subjects above, (1) or (2).) The successful candidate is also expected to play an active role in supervising laboratory activities of the graduate students. The term of appointment is three years with the expectation for renewal for an additional two years. The position is now open, and the term should start at the earliest possible date.

Applicants must have a Ph.D. or equivalent degree in a relevant field, or otherwise must get a degree before the starting date of appointment. Applications should include the following documents prepared either in English or Japanese and should be sent by post or alternatively by online. All the documents must arrive no later than Dec. 3rd, 2018.

1) CV with photo including academic record and professional career
2) Complete list of publications (mark three most important papers)
3) Copy of the papers marked above
4) Summary of research accomplishments (up to two pages)
5) Research plan (up to two pages)
6) List of two Referees

If applicants send the documents by post, an envelope should be labeled clearly in red color “Application for a project research associate position with Prof. Nakatsuji” and sent by registered mail to the address below.
