

## 4. Seminar

**Date:** April 21, 2017

**Title:** X-ray spectromicroscopy: A powerful technique for probing nanostructures

**Speaker:** Dr. Carla Bittencourt (Universite de Mons)

**(LASOR Seminar)**

**Date:** April 27, 2017

**Title:** Ultrafast manipulation of magnetic structures probed by x-rays

**Speaker:** Dr. Urs Staub (Swiss Light Source, Paul Scherrer Institut)

**Date:** August 9, 2017

**Title:** Low Dimensional Systems on Silicon Carbide Surfaces

**Speaker:** Dr. Marie D'angelo (Institut des Nanosciences de Paris & ISSP)

**Date:** September 25, 2017

**Title:** When THz meets X-rays: Ultrafast Magnetism

**Speaker:** Dr. Ilie Radu (Max-Born Institute Berlin, Germany)

**(LASOR Seminar)**

**Date:** December 12, 2017

**Title:** Network structure and properties of liquid water and ice

**Speaker:** Dr. Masakazu Matsumoto

(Research Institute for Interdisciplinary Science, Okayama University)

**Date:** January 17, 2018

**Title:** SARPES 2.0: obtaining information from spin interference

**Speaker:** Dr. Hugo Dil (Ecole Polytechnique Fédérale de Lausanne)

**(LASOR Seminar)**

**Date:** February 1, 2018

**Title:** Developing the frontier of quantum-beam imaging techniques

**Speaker:** Dr. Wataru Yashiro

(Institute of Multidisciplinary Research for Advanced Materials, Tohoku University)
